

Moscow Courtroom Technology Status

The Moscow courthouse has one modest hearing room. This small hearing room does not have a lectern. The Moscow room does have a fairly typical audio system, consistent with other Idaho federal courtrooms, including infra-red for assisted listening. The Moscow hearing room has no video evidence presentation capability whatsoever.

The Moscow hearing room does have an excellent video conferencing system - optimized for remote hearings from Boise or Coeur d'Alene.

Like all Idaho courtrooms, the Moscow hearing room does have available WiFi access.
